About Us

For more than 20 years we have been growing quality trees and shrubs for wholesale and retail customers alike. Committed to providing a positive buying experience, our number one goal is to leave our customers satisfied.

Whether you are looking for a windbreak around your home or livestock facility, trees to add shade to your yard, or new landscaping to provide a pop of color, we would be happy to help. Please feel free to contact us with any questions you may have.

We look forward to working with you!

John, Carolyn and Alex Frazier

Evergreens

Arborvitae, Techny

Our favorite outside row, windbreak tree. Popular in windbreaks and visual screens. Very cold hardy, dense foliage.

Foliage: Glossy dark green
Shape: Upright oval
Height & Spread: 20 ft. by 10 ft.
Growth Rate: Moderate

Cedar, Eastern Red

A tough, native tree. Grows well in sandy soils. Not a common specimen tree. Great for windbreak, wildlife and conservation.

Foliage: Dark green
Shape: Upright pyramidal, irregular
Height & Spread: 35 ft. by 20 ft.
Growth Rate: Moderate

Fir, Concolor

Soft, rounded tip needles, easy to handle. Must have well drained soils. Will temporarily brown/winter-burn with below average temperatures.

Foliage: Silver-green
Shape: Broad pyramid
Height & Spread: 50 ft. by 25 ft.
Growth Rate: Moderate

Pine, White

Native to the Midwest. Hardy and fast growing. Typically will live 100+ years. Soft, three inch needles. Prefers moist, well drained soils.

Foliage: Green, soft needle
Shape: Pyramidal
Height & Spread: 60 ft. by 35 ft.
Growth Rate: Fast

Spruce, Black Hills

Nice hardy conifer with dark green color. Will tolerate dryer soil and will withstand extreme seasonal conditions.

Foliage: Dark green
Shape: Narrow pyramidal
Height & Spread: 40 ft. by 20 ft.
Growth Rate: Slow

Spruce, Colorado Blue

Blue, silver to dark green. Deer resistant. Used as an accent or ornamental, not windbreaks. Susceptible to disease problems at maturity.

Foliage: Blue and silver to dark green
Shape: Pyramidal
Height & Spread: 40 ft. by 20 ft.
Growth Rate: Slow to moderate

Spruce, Norway

Our favorite and most popular windbreak tree. Very hardy. Rapid growth. Prefers moist, well drained soils. 100+ year lifespan.

Foliage: Dark green
Shape: Pyramidal
Height & Spread: 60 ft. by 25 ft.
Growth Rate: Fast

Spruce, White

A hardy windbreak and specimen tree. Good alternative to the Colorado Blue in mass plantings.

Foliage: Blue-green, small needle
Shape: Narrow pyramidal
Height & Spread: 40 ft. by 20 ft.
Growth Rate: Moderate

For pricing, please visit our website:
www.FrazierNursery.com

Shade Trees

Maple, Autumn Blaze

Hybrid between a Silver and a Red Maple. Drought and disease tolerant. Brilliant fall color makes this one of our favorites.

Fall Color: Brilliant orange-red

Foliage: Green

Shape: Oval

Height & Spread: 50 ft. by 40 ft.

Growth Rate: Fast

Maple, Burgundy Belle

Red fall color, transitioning to burgundy though late fall.

Fall Color: Red, burgundy

Foliage: Dark green

Shape: Oval

Height & Spread: 45 ft. by 35 ft.

Growth Rate: Moderate

Maple, Crimson King

Excellent maroon red foliage all summer. Straight trunk with a rounded head.

Fall Color: Dark red, bronze

Foliage: Maroon

Shape: Round

Height & Spread: 40 ft. by 35 ft.

Growth Rate: Slow

Maple, Crimson Sunset

Similar deep burgundy, purple color as the Crimson King but more of an upright oval.

Fall Color: Maroon to reddish bronze

Foliage: Deep purple

Shape: Upright oval

Height & Spread: 35 ft. by 25 ft.

Growth Rate: Moderate

Maple, Firefall

A cross between red maple and silver maple that tolerates harsh climates. Seedless

Fall Color: Maroon

Foliage: Green

Shape: Oval

Height & Spread: 45 ft. by 30 ft.

Growth Rate: Fast

Maple, Green Mountain

In the Sugar Maple family. Straight trunk.

Fall Color: Orange

Foliage: Dark green

Shape: Oval to round

Height & Spread: 50 ft. by 40 ft.

Growth Rate: Slow

Maple, Red Sunset

Our most popular Maple. Holds its fire engine red fall color longer than most.

Fall Color: Bright red

Foliage: Foliage

Shape: Oval

Height & Spread: 45 ft. by 35 ft.

Growth Rate: Fast

Maple, Sienna Glen

A fast growing Maple. Will tolerate harsh Midwest winters.

Fall Color: Rusty orange

Foliage: Green

Shape: Pyramidal

Height & Spread: 50 ft. by 35 ft.

Growth Rate: Fast

Maple, Sun Valley

In the Red Maple family. Symmetrical shape.

Fall Color: Scarlet yellow and red

Foliage: Green

Shape: Oval

Height & Spread: 40 ft. by 35 ft.

Growth Rate: Fast

Austree Hybrid Willow

Our fastest grower, up to 10 ft. per year. Great windbreak tree. 20 year lifespan. Will hold leaves well into fall.

Fall Color: Yellow

Foliage: Green

Shape: Oval

Height & Spread: 45 ft. by 35 ft.

Growth Rate: Fast

Birch, Royal Frost

Burgundy colored leaves set this Birch apart from the rest. Peeling paper-like bark. Available as clump/multi-trunk.

Fall Color: Dark Red

Foliage: Burgundy

Shape: Pyramidal

Height & Spread: 40 ft. by 30 ft.

Growth Rate: Fast

Birch, Whitespire

Resistant to Bronze Birch Borer. Chalk white bark that does not peel. Glossy leaves.

Fall Color: Yellow to gold

Foliage: Glossy dark green

Shape: Narrow oval

Height & Spread: 35 ft. by 25 ft.

Growth Rate: Fast

Catalpa, Northern

One of the few large flowering trees to bloom in late June. Produces a long pod. Fast growing, interesting tree.

Fall Color: Yellow-green

Foliage: Bright green

Shape: Wide, round

Height & Spread: 50 ft. by 75 ft.

Growth Rate: Fast

Elm, Triumph

Upward reaching branches. Very popular for those who have fond memories of elms. Great disease resistance.

Fall Color: Gold, yellow

Foliage: Glossy dark green

Shape: Rounded oval

Height & Spread: 55 ft. by 45 ft.

Growth Rate: Moderate

Birch, River

A popular tree for wet areas. Will tolerate drier soil than other Birches. Peeling paper-like bark. Available as clump/multi-trunk.

Fall Color: Yellow

Foliage: Green

Shape: Oval

Height & Spread: 45 ft. by 35 ft.

Growth Rate: Fast

Hackberry, Prairie Sentinel

Narrow, upright tree, great for small planting areas. Becoming increasingly popular among city street plantings.

Fall Color: Yellow

Foliage: Medium green

Shape: Columnar

Height & Spread: 45 ft. by 12 ft.

Growth Rate: Moderate

Honeylocust, Skyline

No thorns or fruit. Quickly identifiable by its fern-like leaves.

Fall Color: Gold

Foliage: Dark green

Shape: Pyramidal

Height & Spread: 45 ft. by 35 ft.

Growth Rate: Fast

Kentucky Coffee Tree, Espresso

This tree is becoming increasingly trendy.

Popular in modern city plantings. Leaves and branching similar to that of an elm. Seedless.

Fall Color: Yellow

Foliage: Light green

Shape: Oval

Height & Spread: 50 ft. by 35 ft.

Growth Rate: Moderate

Planetree, London Bloodgood

Multicolored, shedding bark resembling camouflage. Commonly planted in city parks.

Fall Color: Yellow

Foliage: Dark green

Shape: Broadly pyramidal

Height & Spread: 50 ft. by 40 ft.

Growth Rate: Moderate

Serviceberry, Autumn Brilliance

Pretty, white blossoms in spring. Typically used as a specimen tree in parks and landscapes.

Fall Color: Orange

Foliage: White

Shape: Round

Height & Spread: 25 ft. by 15 ft.

Growth Rate: Moderate

Willow, Prairie Cascade

Known for fast growth and small size relative to other Willows. Very hardy. Weeping branches provide winter interest.

Fall Color: Yellow

Foliage: Glossy green

Shape: Upright, weeping

Height & Spread: 35 ft. by 35 ft.

Growth Rate: Fast

Ginkgo

Very unique. One of the oldest trees on earth. Storm and disease resistant. Males are seedless. Our favorite. Every yard needs one!

Fall Color: Yellow-green, gold

Foliage: Green

Shape: Round, oval

Height & Spread: 40 ft. by 30 ft.

Growth Rate: Slow

Oak, Bur

Favorite tree among many. Tolerates many different soils, drought and extreme cold.

Native to Iowa.

Fall Color: Brown

Foliage: Dark green

Shape: Round

Height & Spread: 60 ft. by 60 ft.

Growth Rate: Slow

Oak, Pin

Very straight trunk. Pyramidal and formal in shape. Strong branches. Used as a specimen tree in landscaping. Leaves on tree into Winter.

Fall Color: Copper

Foliage: Green

Shape: Pyramidal

Height & Spread: 60 ft. by 45 ft.

Growth Rate: Growth

Oak, Red

More enjoyable fall color than other oaks. Likes well drained, moist soil.

Fall Color: Red

Foliage: Green

Shape: Round

Height & Spread: 50 ft. by 50 ft.

Growth Rate: Moderate

Oak, Swamp White

Fast grower compared to other oaks.

Transplants well. Tolerates wet soils. Ability to grow in a swamp, literally, is a fallacy.

Fall Color: Yellow

Foliage: Green

Shape: Round

Height & Spread: 45 ft. by 45 ft.

Growth Rate: Moderate

Oak, Scarlet

Similar to Pin Oak but more of a globed shape.

Retains its red foliage into winter. Tolerant to poor soils and is fairly wind resistant.

Fall Color: Red, scarlet

Foliage: Green

Shape: Broadly pyramidal

Height & Spread: 75 ft. by 50 ft.

Growth Rate: Moderate

Oak, Regal Prince

Glossy, clean leaves with a formal well-shaped columnar form. Great for lining streets or where space is limited.

Fall Color: Yellow

Foliage: Bright green

Shape: Columnar

Height & Spread: 40 ft. by 18 ft.

Growth Rate: Moderate

Sycamore

Adaptable to adverse soil conditions, city atmosphere, heat and drought. Rapid growing tree if given space. Exfoliating bark.

Fall Color: Yellow

Foliage: Green

Shape: Broadly pyramidal

Height & Spread: 80 ft. by 60 ft.

Growth Rate: Fast

Ornamental Trees

Crabapple, Prairifire

Flower: Light red
Foliage: Red-green
Fruit: Maroon, 1/4 inch
Shape: Round
Height & Spread: 20 ft. by 20 ft.

Crabapple, Profusion

Flower: Pink
Foliage: Purple and bronze
Fruit: Maroon, 1/2 inch
Shape: Oval
Height & Spread: 25 ft. by 15 ft.

Crabapple, Purple Prince

Flower: Rose red
Foliage: Purple to bronze green
Fruit: Maroon, 3/8 inch
Shape: Round
Height & Spread: 20 ft. by 20 ft.

Crabapple, Royal Raindrops

Flower: Bright pink
Foliage: Purple
Fruit: Maroon, 3/8 inch
Shape: Upright, spreading
Height & Spread: 20 ft. by 15 ft.

Crabapple, Spring Snow

Flower: White
Foliage: Green
Fruit: None
Shape: Dense oval
Height & Spread: 25 ft. by 20 ft.

Lilac, Ivory Silk

Flower: White
Foliage: Dark green
Fruit: None
Shape: Compact round
Height & Spread: 20 ft. by 15 ft.

Magnolia, Butterflies

Flower: Yellow
Foliage: Dark green
Fruit: None
Shape: Pyramidal
Height & Spread: 20 ft. by 10 ft.

Japanese Maple, Red Dragon

Can be planted in sun or shade. Lacy maroon-red leaves.
Foliage: Maroon-red
Shape: Weeping, mounded
Height & Spread: 8 ft. by 8 ft.
Growth Rate: Slow

Pear, Aristocrat

Excellent for lining streets or drives or as a specimen tree in landscapes.
Flower: White
Foliage: Dark green, to red-orange in fall
Shape: Upright, Conical
Height & Spread: 30 ft. by 25 ft.
Growth Rate: Fast

Pear, Cleveland Select

Traditional in the southern states to line residential drives. Elegant, clean shape.
Fall color: Red, bronze
Flower: White
Foliage: Glossy green
Shape: Oval
Height & Spread: 30 ft. by 20 ft.
Growth Rate: Fast

Redbud, Eastern

Very colorful in the spring. Used in both formal and non-formal landscapes.
Fall color: Yellow
Flower: Pink
Foliage: Dark green
Shape: Upright, spreading
Height & Spread: 20 ft. by 30 ft.
Growth Rate: Moderate

Fruit Trees

Apple, Honeycrisp

Produces crisp, juicy fruit. Most popular apple in grocery stores. Developed by the University of Minnesota.

Fruit: Yellow with red blush

Ripens: Mid-fall

Pollination: Another mid-spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Apple, Honeygold

Produces juicy, sweet fruit. Developed by the University of Minnesota.

Fruit: Yellow with red blush

Ripens: Mid-fall

Pollination: Another mid-spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Apple, McIntosh

A popular favorite. Soft and juicy. Good for eating and baking.

Fruit: Red and green

Ripens: Mid-fall

Pollination: Another mid-spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Apple, Prairie Magic

Cold-hardy variety. Relatively large, crisp and sweet fruit. Good for eating and cooking.

Fruit: Red with green blush

Ripens: Early fall

Pollination: Another late spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Apple, Wealthy

Relatively large fruit. High sugar content. Very hardy.

Fruit: Deep red

Ripens: Mid-fall

Pollination: Another early spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Apple, Red Delicious

Most well-known variety. Traditional. Heavily grown by commercial orchards.

Fruit: Red

Ripens: Mid-fall

Pollination: Another late spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Apple, State Fair

More sour flavor than other red apples. Good for cooking and pies.

Fruit: Bright red

Ripens: Mid-fall

Pollination: Another early spring variety

Height & Spread: 15 ft. by 15 ft.

Rootstock: Semi-dwarf

Cherry, North Star

Good for canning, cooking and pies. Large fruit is both tart and sour.

Fruit: Tart

Ripens: Mid-summer

Pollination: Self pollinating

Height & Spread: 20 ft. by 20 ft.

Rootstock: Standard

Peach, Elberta

Most popular peach. Very juicy. Ideal for eating, canning and baking.

Fruit: Yellow with red blush

Ripens: Early fall

Pollination: Self-fertile

Height & Spread: 12 ft. by 12 ft.

Rootstock: Standard

Pear, Bartlett

Grows well in many different soil types. Fruit is firm, juicy and large in size. Very popular for eating and canning.

Fruit: Yellow

Ripens: Early fall

Pollination: Another pear variety

Height & Spread: 25 ft. by 20 ft.

Rootstock: Standard

Plum, Stanley

Sweet and juicy with yellow flesh. Excellent for canning, eating and preserves.

Fruit: Dark purple

Ripens: Early fall

Pollination: Self-fertile

Height & Spread: 15 ft. by 15 ft.

Rootstock: Standard

Shrubs

Arborvitae, Hetz Midget Globe

Compact, miniature and low maintenance. Commonly used as a border and accent. Great for year-round color in small areas.

Foliage: Rich green

Shape: Round, globe

Height & Spread: 3 ft. by 3 ft.

Light: Sun to partial shade

Boxwood, Winter Gem

Very cold-hardy. Will tolerate partial sun to shade. Excellent low growing hedge. Holds green color year-round.

Foliage: Green

Shape: Compact, round

Height & Spread: 3 ft. by 3 ft.

Light: Partial sun to shade

Burning Bush, Dwarf

Stunning fall color. Compact in form. Can be used as a hedge. Square shaped twigs are unique and provide winter interest.

Fall color: Brilliant red

Foliage: Green

Shape: Round, dense

Height & Spread: 5 ft. by 5 ft.

Light: Full sun

Hydrangea, Endless Summer

Blue flowers in slightly acidic soil, pink blooms in alkaline soil. Very showy, large flower heads. Always blooming in season with great color.

Flower: Blue or pink

Foliage: Green

Shape: Round

Height & Spread: 4 ft. by 4 ft.

Light: Sun to partial shade

Hydrangea, Little Lime

A smaller version of the Limelight. Compact in form. Great for color placement under windows or around patios and decks.

Flower: Light green, hints of pink

Foliage: Green

Shape: Round, compact

Height & Spread: 4 ft. by 4 ft.

Light: Full sun to partial shade

Hydrangea, Vanilla Strawberry

Creamy white blooms transition to pink, then strawberry red. Fantastic pop of color. Less dense than other Hydrangeas.

Flower: White and pink

Foliage: Green

Shape: Upright

Height & Spread: 6 ft. by 4 ft.

Light: Full sun

Juniper, Blue Point

Dense branching and foliage make a great visual screen. Commonly used as a formal accent. Low maintenance.

Foliage: Blue-green

Shape: Pyramidal, tear drop

Height & Spread: 10 ft. by 6 ft.

Light: Full sun

Juniper, Blue Rug

Full centered growth habit. Very popular among the low growing, ground-covering Junipers. Commonly allowed to drape over a wall.
Foliage: Blue-green
Shape: Low, mat-like
Height & Spread: 6 inches by 5 ft.
Light: Full sun

Lilac, Common Purple

Traditional, showy, fragrant flowers in early spring. Used for color in landscapes or as Windbreak shrub. Spreads by suckering.
Flower: Purple, very fragrant
Foliage: Green
Shape: Upright, irregular
Height & Spread: 10 ft. by 10 ft.
Light: Full sun

Lilac, Betsy Ross

Pure white, fragrant flowers. Compact, rounded growth habit. Dark green leaves are very tolerant to mildew.
Flower: White
Foliage: Dark green
Shape: Round
Height & Spread: 8 ft. by 8 ft.
Light: Full sun to partial shade

Lilac, Miss Kim

Smaller, more compact and later flowering than the Common Purple Lilac. Slower growing than other lilacs.
Flower: Lavender, fragrant
Foliage: Dark green, slightly burgundy in fall
Shape: Round
Height & Spread: 7 ft. by 6 ft.
Light: Full sun

Ninebark, Coppertina

Copper-red all season.
Flower: White with pink
Foliage: Copper
Shape: Upright, spreading
Height & Spread: 7 ft. by 5 ft.
Light: Full sun

Ninebark, Dart's Gold

Striking yellow provides great accent color. Used as hedge or specimen in landscapes.
Flower: White
Foliage: Yellow, lime green, bronze in fall
Shape: Round, compact
Height & Spread: 5 ft. by 5 ft.
Light: Partial shade to full sun

Potentilla, Mango Tango

Continually blooming small flowers through fall. Great color around outdoor living areas.
Flower: Yellow, gold, orange
Foliage: Bright green
Shape: Mounded
Height & Spread: 2 ft. by 3 ft.
Light: Full to partial sun

Potentilla, Pink Beauty

Long lasting pink flowers. Use in mass plantings or as a border.
Flower: Pink
Foliage: Bright green
Shape: Round
Height & Spread: 2 ft. by 2 ft.
Light: Full to partial sun

Rhododendron, Roseum Elegans

Most commonly used as an accent plant. Hardy in northern climates. Spring flowers look similar to that of a rose and a lilac. Fast grower.
Flower: Pink
Foliage: Bright green
Shape: Mounded
Height & Spread: 5 ft. by 5 ft.
Light: Partial sun

Rose, The Double Knock Out

Unbelievable spring through fall color, with low maintenance. Disease resistant and drought tolerant. High centered, double flowers.
Flower: Red
Foliage: Purple-green
Shape: Compact, upward
Height & Spread: 4 ft. by 3 ft.
Light: Partial sun

Rose, The Pink Double Knock Out

Pink version of the original, red, Double Knock Out. Low maintenance. Continuous spring through fall color.

Flower: Pink

Foliage: Dark green

Shape: Compact, upward

Height & Spread: 4 ft. by 3 ft.

Light: Partial sun

Rose, Pink Drift

Low growing, spreading. Used as groundcover in front of other foundation plants or in mass plantings. Blooming spring through fall.

Flower: Pink

Foliage: Dark green

Shape: Compact, upward

Height & Spread: 1 ft. by 3 ft.

Light: Full sun

Rose, Red Drift

Smaller than other Drift Roses. Uses are same as Pink Drift. Winter hardy and full of accent color.

Flower: Red

Foliage: Dark green

Shape: Compact, upward

Height & Spread: 1 ft. by 3 ft.

Light: Full sun

Spirea, Magic Carpet

Compact, red-tipped yellow foliage in spring turning to a yellow-green. Color can be used to brighten any landscape. Pink flower

Flower: Pink

Foliage: Yellow and red, to yellow-green

Shape: Mounded

Height & Spread: 2 ft. by 3 ft.

Light: Full to partial sun

Spirea, Neon Flash

Produces long-lasting neon-red flower clusters. Foliage changes from bright green to dark burgundy in fall.

Flower: Pink

Foliage: Bright green

Shape: Mounded

Height & Spread: 4 ft. by 4 ft.

Light: Full sun

Spirea, Tor Birchleaf

Birch-like rich green leaves. White flowers in early spring. Foliage becomes copper or even gold, red and purple in fall.

Flower: White

Foliage: Green

Shape: Mound

Height & Spread: 3 ft. by 3 ft.

Light: Full sun

Weigela, Minuet

Produces lots of bright, fragrant flowers. Easy way to add a splash of color to a landscape.

Attracts Hummingbirds.

Flower: Red-purple

Foliage: Green with hints of purple

Shape: Mound, compact

Height & Spread: 2 ft. by 3 ft.

Light: Full sun

Weigela, Wine and Roses

Dark burgundy foliage with rosy-pink flowers. Blooms in spring, and re-blooms throughout the summer.

Flower: Rosy-pink

Foliage: Burgundy

Shape: Round

Height & Spread: 4 ft. by 4 ft.

Light: Full sun

Not all plants are listed in this catalog. If you're looking for something that isn't listed, please let us know. We are able to order in most plants if we don't have them on hand.

Windbreaks

Design

Slowing the wind, controlling the snow drift and creating a visual barrier can all be done with the correctly designed plantings.

In agriculture, trees around livestock facilities can have a great impact on the operation and can even help in reducing odor.

For an effective windbreak we like to plant the inside row no closer than 75 feet away from the area you wish to protect to ensure snow has room to drift on the ground (not on your roof or driveway).

We have helped many home owners and farmers through the process of designing and planting windbreaks. We assist in plant selection to best suit your applicaiton, windbreak design, supplying nursery stock of all sizes, site layout and flagging, as well as installation of trees and shrubs.

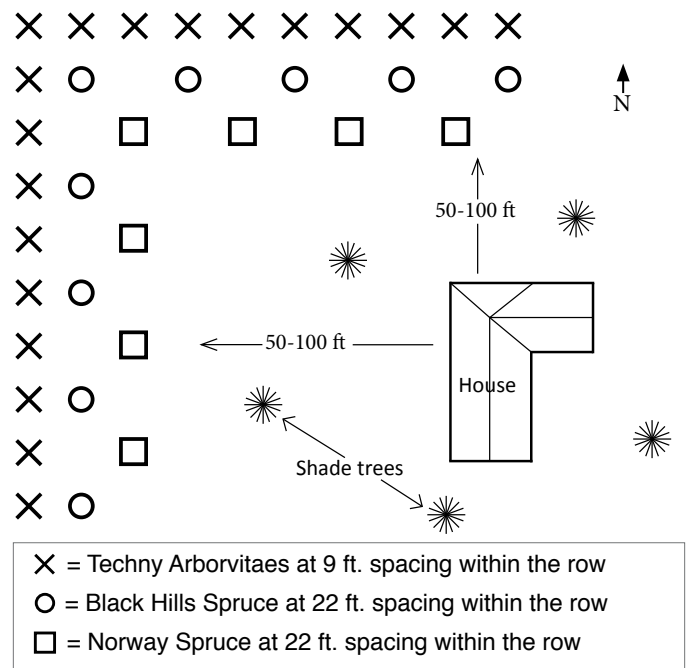

Common windbreak shrubs

- Aronia Chokeberry
- Hazelnut
- Lilac
- Ninebark
- Redosier Dogwood
- Wild Plum

Common windbreak trees

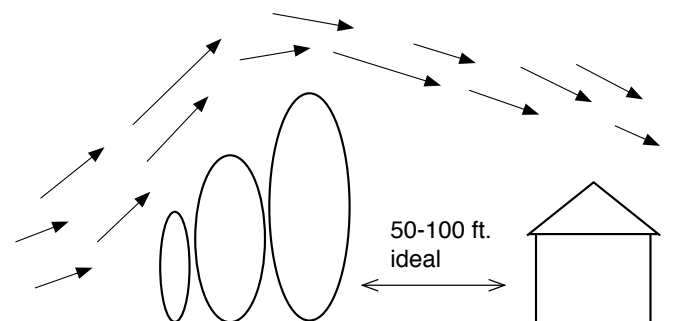

- Arborvitae, Techny
- Austree Hybrid Willow
- Cedar, Eastern Red
- Fir, Concolor
- Pine, White
- Spruce, Black Hills
- Spruce, Norway
- Spruce, White

Common three row windbreak layout

Wind direction

The objective is to slow, and direct the wind pattern over your home or livestock facility.

For more information on windbreaks and tree selection please visit our website, www.FrazierNursery.com.
